Nuclear Energy:

Assuring Energy, Health and Food

May 6-10, 2024

Escola de Guerra Naval (EGN) | Rio de Janeiro | RJ | Brazil

Promotion

ExpoINAC 2024

will be held in Rio de Janeiro

The 11th International Nuclear Atlantic Conference – INAC 2024 (Conferência Internacional Nuclear do Atlântico) will be held in the period from May 6 to May 10, 2024. Its main theme will be “Nuclear Energy: Ensuring Energy, Health and Food”. Its main objective will be the discussion about the essential role of nuclear technology and its applications on those fundamental issues for society in general.

INAC is an event held every two years, organized by the Brazilian Association of Nuclear Energy, a 42-year-old institution that promotes the dissemination of peaceful uses of nuclear energy in areas like electric energy generation, medicine, agriculture, environment and industry.

Parallel to INAC 2024, the event will include the 23rd Meeting of Physics of Reactors and Thermo-Hydraulics (ENFIR), the 16th Meeting of Nuclear Applications (ENAN), the 8th Meeting of Nuclear Industry (ENIN), as well as the 10th Junior Poster Technical Sessions (poster sessions for undergraduate students) and the 11th ExpoINAC.

ExpoINAC 2024, with its traditional exhibition stands, will congregate, in the same venue, the commercial and technical sectors, in order to integrate the participants with guest speakers and exhibitors. In the meantime, there will be demonstrations of products, services, innovations as well as solutions designed to boost business and projects both in national and international contexts.

The event is an excellent opportunity for knowledge updating and the establishment of new partnerships due to the presence of professionals and companies representing the complete productive chain in the nuclear sector from research and development to infrastructure and research and regulatory institutions.

Come and participate in the undeniably greatest event of the nuclear sector in Latin America!

Katia Lanes
ExpoINAC CHAIR

Parallel Events

XXIII ENFIR - Meeting on Nuclear Reactor Physics and Thermal Hydraulics

XVI ENAN - Meeting on Nuclear Applications

VIII ENIN - Meeting on Nuclear Industry

X JR. POSTER - A National Program of Scientific Initiation that promotes the participation of undergraduate students in the production of knowledge, under the supervision of researchers.

XI ExpoINAC

Target Audience

- Professionals from the Nuclear Energy sector;
- University Professors, researchers and students (Physics, Chemistry, Medicine, Pharmacy, Biology, Geology and Engineering courses)

Participating Sectors

- Electrical Sector in general
- Nuclear, electronic, heavy mechanical, metallurgical and chemical industries
- Nuclear Medicine
- Agriculture and Food irradiation
- Nuclear applications in industry, environment and cultural assets;
- Management software companies
- Technological innovation and service provision
- Educational institutions, scientific, business and technological associations
- Organizations and standards bodies
- Other

Sponsorship Quotas

CLASS	Total Price (BRL)	Booth Area	Lecture Time	Brasil Nuclear Magazine Advertising	INAC 2024 registration per stand	Exhibitors
DIAMOND	Presentation of a technical lecture in the official event program; Advertising placement in Brasil Nuclear Magazine; Registration for the conference; Participation in ExpoINAC 2024, with a booth in basic assembly; The company's logo will be included in all event promotional products, highlighted according to the sponsorship category The company's promotional material can be inserted in the bag provided to the participant at the event					
	150 K	18 m ²	40 min	1 page	20	8
PLATINUM	Presentation of a technical lecture in the official event program; Advertising placement in Brasil Nuclear Magazine; Registration for the conference; Participation in ExpoINAC 2024, with a booth in basic assembly; The company's logo will be included in all event promotional products, highlighted according to the sponsorship category The company's promotional material can be inserted in the bag provided to the participant at the event					
	100 K	18 m ²	20 min	1/2 page	15	8
GOLD	Presentation of a technical lecture in the official event program; Advertising placement in Brasil Nuclear Magazine; Registration for the conference; Participation in ExpoINAC 2024, with a booth in basic assembly; The company's logo will be included in all event promotional products, highlighted according to the sponsorship category					
	75 K	9 m ²	15 min	1/4 page	10	6
SILVER	Advertising placement in Brasil Nuclear Magazine; Registration for the conference; Participation in ExpoINAC 2024, with a booth in basic assembly; The company's logo will be included in all event promotional products, highlighted according to the sponsorship category					
	50 K	9 m ²	-	1/4 page	5	5
BRONZE	Advertising placement in Brasil Nuclear Magazine; Registration for the conference; The company's logo will be included in all event promotional products, highlighted according to the sponsorship category					
	20 K	-	-	1/4 page	3	-

We would like to add to the Diamond, Platinum and Gold sponsorship quotas owners that when conducting lectures there will be no other event in parallel

Extras

Price (BRL)

BRASIL NUCLEAR MAGAZINE ADVERTISING

1/4 page	2,5 K
----------	-------

OPENING COCKTAIL

Exclusive	40 K
-----------	------

Shared by two companies	20 K
-------------------------	------

COFFEE BREAK (EACH)

Exclusive	15 K
-----------	------

Shared by two companies	7,5 K
-------------------------	-------

CONFRATERNIZATION DINNER

Three Quotas of 30 K (shared)

Sponsorship of the cocktail, coffee break and/or celebration dinner, purchased in full or shared with another company, will have as compensation the inclusion of the logo on all pieces and publicity material, in the "Support" category. Furthermore, the sponsor can use the space where the sponsored event will take place to place its own banners and/or backdrops. The artwork for the material to be exhibited will have to be approved in advance by Aben.

Important notes

Standard assembly description (OCTANORM Modulated System)

By acquiring the sponsorship quotas, the company will be able to use a standard assembly, which contains:

- 3mm carpeted floor in graphite color, applied directly on the floor of the place;
- Partition walls mounted with Formica TS panels with white finish, framed on natural anodized aluminum profiles;
- Pergola ceiling mounted with natural anodized aluminum profiles;
- Identification straight in TS Formica with 100cm x 50cm, with white finish on both sides, identification application of logo on adhesive;
- Lighting with one 9watts led spot and one 127 volt electrical socket for every 3m² of area, with a capacity rated at 250 watts, without the ground wire;
- 6,6m² of graphics (printed and installed stickers) equivalent to 03 dividing walls
- A glass table, round top with 80cm in diameter and 03 upholstered chairs;
- A recycling bin.
- A counter with sliding doors;

Special Projects

Exhibitors will be allowed to develop special projects by the official assembly company of the Exhibition. For a quote, consult the event executive secretariat

Not included costs

Municipal fees and ECAD, cleaning and internal booth security.
